## A Fancy Clergyman.

The Rev. G. W. Godfrey, of New York, was ordained at Trinity (Episcopal) Church in that city, sometime last winter, and soon afterwards received a call to assume the pastoral charge of an Episcopal Church at Galveston Texas. A few weeks since he turned up at Suspension Bridge, having left Texas, as he says, because the Church would not pay him his salary. At Suspension Bridge he somehow fell into a house of ill fame where he met a blooming woman, calling herself Mrs. D. E. Sickles, but in fact the wife of a Mr. Dyke, a telegraph operator at Syracuse, to go to whom she had ostensibly left her home at Canada West. The Rev. gentleman calling himself, Rev. James W. Hartford of Texas, being acquainted with Mrs. Dyke, at once arranged to have her accompany him on to New York. Stopping over one day at the Adam's House, Albany, Dyke got on the track of his absconding wife and discovered her there, and tried to induce her to return with him, but she having a predilection for clergymen, escaped and proceeded on to New York, to which city the Rev. gentleman had himself departed from Albany for, on the appearance of Dyke the husband. Arriving at N. Y., Mrs. Dyke proceeded to look up her Rev. friend, in which she seems to have had no difficulty, finding him in Leroy-st., at the house of his mother-in-law by a former marriage, where he was comfortably domiciled, having in his possession her trunk etc which he had had the precautions to take with him from Albany. Here Dyke again appears in search of his truant wife, finding the house and relating his grievances to the lady mistress; but the Rev. gentleman was too cunning for him, and moved the baggage, taking himself and it is supposed Mrs. Dyke, to parts not yet known.

The New York Tribune, from an account in which we condense the above facts, further says:—"Mr. Godfrey has been twice a widower, having married the sister of his first wife early last Spring, about four months after he had become a widower. The second wife died about two months subsequent to the marriage. The Rev. Mr. Godfrey officiated at the Episcopal Church in Rahway, N. J., on the following Sabbath after the occurrence above related."

We have no doubt the Rev. Mr. Godfrey would be glad to accept a call from any Church without a Pastor, that would pay him a good salary.

**ENIGMAS IN SCIENCE.**—The water which drowns us as a fluent stream can be walked upon as ice. The crystallized part of the oil of roses is a compound substance, containing exactly the same elements, and in exactly the same proportions, as the gas with which we light our stoves. The tea which we daily drink with benefit and pleasure, produces palpitations, nervous tremblings, and even paralysis, if taken to excess; yet the peculiar organic agent, called theine, to which tea owes its qualities, may be taken by itself without any appreciable effect. The water which will allay our burning thirst segments it when congealed into snow; but if the snow be melted, it becomes drinkable water. If melted before entering the mouth, it manages itself like water; but when melted in the mouth, it has the opposite effect. Ice, which melts more slowly than snow in the mouth, is very sufficient in allaying thirst.

At Detroit an artesian well has been bored for the purpose of supplying the State Prison with water. At the depth of one hundred and fifty-five feet they struck what seemed to be an inexhaustible vein of pure water, and in such quantity as to supply all the shops. At the depth of ten feet the workmen struck a solid rock, and it continued, varying somewhat in hardness only until they came to water.

## The Isthmus Gold Diggins.

A correspondent of the Panama Star who is evidently familiar with the locality in which the discoveries have been made, writes as follows:

"The discovery is a very interesting one in many points of view. The possession of such a quantity of the precious metal must inevitably tend to improve the industrial prosperity of that province, populate the country, and eventually lead to discovery of the mines from which the gold has been originally obtained, and which can only be in the adjacent Cordilleras.

They further show the universality of that belief in immortality, which like geological strata, we find in the new world as well as in the old. From the tumulus which contain the warrior, his horse and his drinking cup, to be used again in the halls of Odin of our Scandinavian ancestors, to the playthings of the Indian children, now brought to light in the "Hucnas" of Chiriqui; the earthen barrows of ancient Troy, Greece and Scythia in the steppes of Tataria; (where two corpses were found wrapped in sheets of gold weighing 49 pounds,) the mounds of the valley of the Mississippi and the table lands of Mexico—all speak the same sentiment; and it is to be regretted that no intelligent artist and "correspondent" is present at Chiriqui to depict and record the nature and form of these interesting relics of lost tribes, as modern avarice shall have destroyed the only hieroglyphics that remain to us of their industry, their hopes and fears about a future existence.

The ancient burying grounds are indicated in various ways—some have a heap of stones piled up rudely over the grave, others are shown by a piece of the column of basaltic rock, placed in the centre, some have a circle of stones inclosing the grave. They are found everywhere throughout the Province, from the shores of the Lagoons of Chiriqui to the Islands of the Pacific. They exist in the deepest valleys and along the highest recesses of the Cordilleras. Such as have been opened hitherto in the wooded plains produced but little gold. They were probably an agricultural race, and the utensils of the dead were in relation thereto. The present discovery has taken place near two villages called Bugaron and Bujaba, westward towards Punta Barica and Golfo Dulce. The plains thence become heavily wooded. Trees of large girth are found over the "hucnas." The data as to their age is by no means precise. That they were before the conquest is plain enough, seeing that the conquerors respected neither the temples of God, nor the repose of the dead, if gold was to be gained. All kinds of ghost stories are afloat among the natives, who report hearing unearthly noises and tambores (drums) in the Cordilleras, which they attribute to His Sable Majesty who does not wish the graves to be molested."

A communication from Rome says:

"The magnificent statue of the Marina Venus which was discovered a few weeks ago in some excavations made in the gardens of Julius Caesar, not far from the Portense gate, has been definitively purchased for the Imperial Museum of St. Petersburg, for a sum of about 50,000*fr.*

Christ said, "render unto Caesar the things that are Caesar."

**COAL DISCOVERED.**—Mr. P. BARNHART has left with us, says the *Fredonia Censor*, specimens of coal which have been brought to light in the excavation for the gas tank of the Natural Gas Company on Center street. The seam is about a fourth of an inch in thickness, compressed between the layers of slate rock, but the coal is very rich apparently in bituminous matter. In this coal exists the key to the solution of the natural gas phenomena in this section. From the decomposition of this bituminous matter, located hundreds of feet perhaps below the surface, the gas is generated which finds its outlet through fissures of the superincumbent strata, and by which our village is now high-d.

**A SMALL WORLD.**—The great globe in Leicester Square, London, is the greatest globe ever made, being 80 feet in diameter. It would hold an ordinary house inside of it. The inequalities of surface on the globe are very accurately represented, and one sees on it that the height of the highest mountain is very insignificant compared with the immense diameter of the planet, and scarcely affects the spherical form of the globe. One thing strange about this globe is that you have to go inside of it to look at it, the map being all on the concave surface.

We are glad to see, says a lady writer the revival of an old fashion which we always liked very much and that is aprons. A neat dress, with lace collar, and pretty black silk apron, was always our ideal of home toilette. The styles, as worn at present, are small and tasteful, made of single colored silk and ornamented with pockets and trimming of black velvet, or rows of narrow lace.

Time is money that passes current, and was never counterfeited.

It is said that Dickens will be in America in eight weeks.

A car load of white (new) Michigan wheat the first of the season was received at Albany, Tuesday of last week.

In these days of folly, frivolity and appearances, there's no telling what the character of any person is, for both sexes now wear false bosoms.

The cheapest gas in the United States is made at Pittsburgh, Pa., at \$1.50 per thousand. The dearest in this State is at Auburn, where they pay \$7. There are 43 cities and towns in the State which use it.

## Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending from parents to children into the third and fourth generation; indeed, it seems to be the rod of him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or alcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which renders in the blood, depraves the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alternative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

## AYER'S

## Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedies that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERYTHRODERMA, SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, POSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPENTRIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "impurity of the blood," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

## Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, restoring its diseased action, and restoring its healthy vitality. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and infallible.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: Constipation, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Infection of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

## Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what authority to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

OBITUARY.

It is with extreme sorrow that we have to chronicle the death of JEREMIAH J. DANNON. He died last night about 11 o'clock after an illness of little more than two weeks, of remittent fever. The disease was thoroughly known in all this community, and was esteemed as a most virulent man—being always kind, charitable, benevolent and most scrupulously honest in all things. It was the aim of his life to be good as an erring mortal could be, and he revealed to the appreciating mind the loveliness of character—a something within the external man that drew the heart out in affection for him.

With the poor he was always most patient and charitable, never refusing to minister to their wants when possible for him to do so, and very successfully too, as a medical adviser, in which he was entirely self-educated. He at an early day embraced Spiritualism, and held steadfastly his faith to the last, always adhering to, and living out its doctrines so far as his opportunities gave him knowledge. The mortal world is now closed to him, and he leaves behind the name of having been a truly kind good man.

WINKLED IN.—Saturday evening last, Mr. Paine seemed to be wheeled on a wheelbarrow to a place of safety, a specimen of humanity which he found on the sidewalk dead—drunk.

DR. HOOFLAND'S GERMAN BITTERS,

AND DR. HOOFLAND'S BALSAMIC CORDIAL.

The great standard medicines of the present age, have acquired their great popularity only through years of trial. Unbounded satisfaction is rendered by them in all cases; and the people have pronounced them worthy.

Liver Complaint, Dyspepsia, Jaundice, Debility of the Nervous System, Diseases of the Kidneys,

and all diseases arising from a disordered liver or weakness of the stomach and digestive organs; are speedily and permanently cured by the GERMAN BITTERS.

The Balsamic Cordial has acquired a reputation surpassing that of any similar preparation extant. It will cure, WITHOUT FAIL, the most severe and long-standing

Cough, Cold, or Hoarseness, Bronchitis, Inflammation, Croup, Pneumonia, Incipient Consumption,

and has performed the most astonishing cures ever known of

Confirmed Consumption. A few doses will also at once check and cure the most severe Diarrhoea proceeding from Cold in the Bowels.

These medicines are prepared by Dr. C. M. JACKSON & Co., No. 315 Arch Street, Philadelphia, Pa., and are sold by druggists and dealers in medicines everywhere, at 75 cents per bottle. The signature of C. M. JACKSON will be on the outside wrapper of each bottle.

FROM EUROPE.

Arrival of the Vanderbilt.

NEW YORK, Aug. 13. The steamship Vanderbilt, from Southampton on the 2d inst., arrived at this port this evening.

ENGLAND. The Queen and Royal family sailed around the squadron, at Spithead, on Saturday, July 30th. Royal salutes were fired, &c.

The Russian squadron joined in the demonstration.

The London Herald has the following:—We have reason to believe that Mr. Dallas has recently placed in the hands of Lord John Russell, a dispatch from Washington, in which it is stated that the U. S. Government has resolved to abandon privateering, and thus to accept the declaration respecting this portion of Maritime law, agreed upon at the Congress in Paris, in 1858.

The Patria contradicts the report about Prince Napoleon being charged with a mission to Vienna.

The London Post says that Garibaldi has sent a circular to all the free States of Italy, in which he declares his army to be ready at any moment to continue the Italian war of independence.

The Prague Gazette says that a fearful fire broke out in the town of Klosterb., containing about 165 houses, and about 1000 inhabitants, few of whom saved any of their goods or houses. The entire town was destroyed in 1782.

The amount of the debt of India on the 1st of May, 1855, is returned at the sum of £30,104,084, of which £26,165,005 was a general debt—the rest floating.

The Grand Duchess Marie, of Russia, arrived at Dover, after a rough passage from Ostend.

FRANCE. The Times correspondent says that the Count De Presigny has left Paris on his return to London.

The Minister of War had addressed an order to all Colonels of regiments to send home all soldiers whose absence had been recalled, as the declaration of war against Austria, and likewise all those who are entitled by their services for leave of absence for six months, so that they may be at the disposal of the farmers—who may require them for getting in the harvest.

The accounts from the agricultural districts are not unfavorable. The harvest, altogether, will exceed that of good ordinary year, and there will be an overplus for exportation.

ASTORIA. The Vienna correspondent of the Times says:—Although Count Colloredo had an audience of the Emperor on the 28th of July, and was long closeted with the Minister of Foreign Affairs, he is not likely to leave for Zurich until the beginning of the coming week.

For a time a very unfriendly feeling towards England prevailed here, but the wrath of the Austrians is rapidly subsiding.

The promise of the Emperor of the French to put his army and navy on a peace footing has made a great impression on the Austrian financial world.

The Count De Bonnyville will return here as the representative of France.

SPAIN. The Madrid journals of the 26th, state that a number of deputies of Lagranja had waited on the Queen to congratulate her pregnancy.

It is said that the government had resolved on establishing a municipal system in the Island of Cuba.

PIDMONT. Garibaldi has issued the following order, dated, LEVERA, July 29.

Wherever political affairs may go in the present circumstances, it is the duty of the Italians not only not to lay down their arms and manifest discomfitment, but so swell the ranks and show to Europe, that, guided by the heroic Victor Emmanuel, they are ready again to confront the vicissitudes of war, in whatever form they may present themselves.

PAPAL STATES. The Times correspondent from Rome says, that there is a great dissatisfaction felt here, and I have no hesitation in saying that the French soldiers alone keep down a general outbreak.

The Jesuits have been driven out from Faenza, Forli and Ferrara—in the last city only one hour was given them to leave, and in the other two, 24 hours.

The Bologna Gazette publishes a declaration to the effect that the Province of Romagna, had shaken off the Papal yoke, never to retain it again, and that it is their wish to be annexed to Sardinia.

THE CROSS OF St. THE TUSCAN ARMY has between Modena and

troops are constantly passing through Milan on their way back to France.

TUNIS, 20th.—The Dictator of Moden has convoked the popular assembly. All persons competent to read and write, and whose age is not less than 21, will be entitled to vote. Perfect order prevails.

PARIS, Wednesday.—The Monitor announces the dissolution of the army of Riego.

The Corps of Chalons and Elfant remain established.

The Times correspondent says the Emperor is very anxious to satisfy European powers of his pacific intentions, and before many days the European powers will be invited to a Congress, when a solution of the Italian difficulty will be proposed, which will deserve support for its liberal character.

As specifics for the above mentioned diseases, they are Unrivalled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors, FLEMING BROTHERS, PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to FLEMING BROS., Pittsburgh, Pa.

P. S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take note that Dr. M'Lane's Vermifuge and Liver Pills are prepared by Fleming Bros., Pittsburgh, Pa. To those wishing to give them a trial, we will forward per mail, post paid, ten of each of the above named pills, one box of Pills for twelve three-cent postage stamps, or one box of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty-cent note.

Dr. C. T. Pausanias, of Baltimore, M. D., a student of Dr. Herriek's Pills, writes: "I have tested your purgative Sugar Coated Pills in a variety of cases, and find them superior to any other I ever used. My constituents, particularly the female sex, have fallen in love with them, and frequently ask me to give them the Sugar Coated Pills. Your discovery is a real boon to the human race, and I should be proud to have your name attached to it. Please accept my thanks for the gift of Pills which reached me this morning by express, filled with the amount of your gift. Sold everywhere."

THE GROVER & BAKER

Sewing Machine Co.

Having greatly increased their facilities for manufacturing their Celebrated Family Machines, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE, PRICE \$50.

It is no longer questioned that these Machines are the best in use for family sewing. They are HEM, FELL, GATHER, AND STITCH in the most superior manner, and are so well and simply made, that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS may readily learn to use them, and keep them in order. They make upwards of FIFTEEN HUNDRED STITCHES A MINUTE and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States who will permit the drudgery of hand sewing to his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?
